Information for Authors

Manuscript Submission. Manuscripts can be submitted in triplicate to any member of the Editorial Board. Electronic submissions are strongly encouraged.

Aim and Scope. Dynamics of Partial Differential Equations publishes novel results in the areas of partial differential equations and dynamical systems in general, and priority will be given to dynamical system theory or dynamical aspects of partial differential equations. Both original and expository articles are included.

WWW. Dynamics of Partial Differential Equations is available electronically at <http://intlpress.com/PDE>.

Manuscript Preparation. Authors are encouraged to submit their manuscripts in electronic form using TEX, LATEX, or AMS-LATEX. Authors may consult "A Manual for Authors" published by the American Mathematical Society (1980 edition). Only original manuscripts not previously published may be considered, and the authors must agree that the manuscripts have not been submitted elsewhere.

Proofs. Authors receive only one set of proofs for corrections. Joint authors should indicate to whom the proofs should be sent.

Offprints. Fifty offprints are supplied free of charge to the authors. Additional offprints may be purchased at a reasonable cost.

Subscription Information

Dynamics of Partial Differential Equations (ISSN 1548-159X) is published quarterly, for numbers, in one volume a year, by International Press Co., Ltd. The annual subscription price is US\$187 plus \$80 shipping for institutions and individual subscribers. Subscriptions should be addressed to:
