

Advances in Theoretical and Mathematical Physics

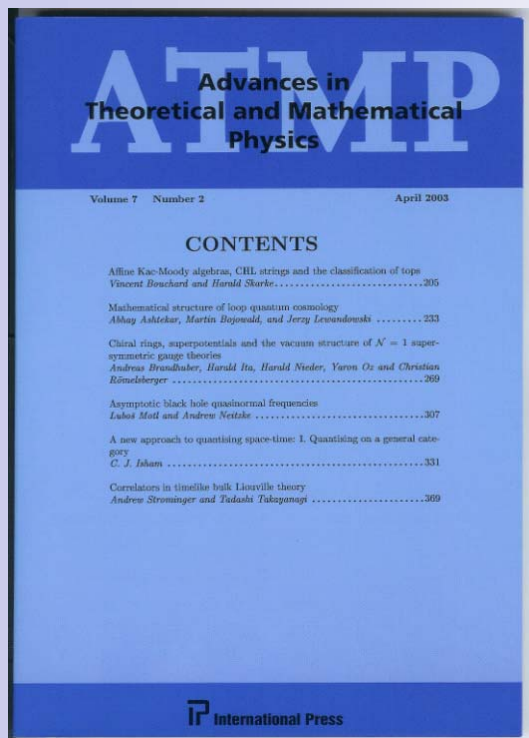

Advances in Theoretical and Mathematical Physics is published by **International Press**. (ISSN: 1095-0761)

The distinguished editorial board of ATMP consists of leading researchers, who have made fundamental contributions to theoretical mathematics and/or physics.

To submit, please place your article on www.arxiv.org, then send the arxiv number to (with ATMP in the subject line): mark@csc.albany.edu

The subscription prices for 2003 and 2004 are only **\$405** and **\$437!**

To subscribe, please send email to: journals@intlpress.com

Special Features of ATMP

Mathematics and Physics have a long and fruitful history of vibrant exchange. ATMP seeks to cultivate and stimulate research across the traditional borders of these two disciplines by publishing original research papers and review articles that straddle their interface. The highest of standards have been applied in the evaluation of all submitted manuscripts. An article will require the approval of the entire editorial board to be accepted.
