

Journal of Differential Geometry

Aims and Scope

Since 1967, the Journal of Differential Geometry (ISSN: 0022-040X) has been devoted to the publication of research papers in differential geometry and related subjects such as differential equations, mathematical physics, algebraic geometry and geometric topology.

JDG is published by International Press. Subscribers get the nine issues, plus the annual supplement of *Surveys in Differential Geometry: A* book containing survey articles by the most prominent geometers on issues of current interest.

To submit articles, please send manuscripts to:

Sample Articles

- *Three Manifolds with Positive Ricci Curvature*
- Richard S. Hamilton
- *The Topology of Four-Dimensional Manifolds*
- Michael Freedman
- *An application of Gauge Theory to Four-Dimensional Topology*- Simon K. Donaldson
- *Morse Theory for Lagrangian Intersections*
- Andreas Floer
- *GR=SW: Counting Curves and Connections*
- Clifford H. Taubes
- *The Inverse Mean Curvature Flow and the Riemannian Penrose Inequality*- Gerhard Huisken & Tom Ilmanen
