

Mathematical Research Letters

Special Features

MRL (ISSN: 1073-2780) is dedicated to rapid publication of research announcements, complete papers and expository papers. Manuscripts in all areas of mathematics will be considered. High standards will be applied in evaluating manuscripts, and approval of the entire editorial board is required for acceptance of any paper.

2004 subscription price is \$275.

Table of Contents, and subscription rates for current and previous issues can be found at:

www.math.ucsd.edu/~mrl

A Journal by International Press

Sample Articles:

- *Ambient metric construction of Q -curvature in conformal and CR geometries* — C. Fefferman and K. Hirachi
- *Elliptic Selberg integrals and conformal blocks* — G. Felder, L. Stevens and A. Varchenko
- *On nonuniqueness for Calderon's inverse problem* — A. Greenleaf, M. Lassas and G. Uhlmann
- *Tamagawa factors for symmetric squares of Tate curves* — N. Dummigan
- *The Fuglede spectral conjecture holds for convex planar domains* — A. Losevich, N. Katz and T. Tao

Editors-in-Chief:

M. Salah Baouendi
Linda P. Rothschild

UC San Diego
